

Evaluation

Read this rubric to see how you will be scored on this activity.

	Criteria				Points
	0	5	10	15	
Process	The process was not followed and questions were not answered.	The process was followed but answers to questions showed no evidence that resources were used.	It was evident that resources were used to answer process questions but answers were incomplete or incorrect.	Answers to process questions were complete and supported by evidence from resources.	
Summary	A summary was not written.	The summary did not include or incorrectly identified characteristics of science.	The summary correctly identified characteristics of science and included an example of a question that can be answered scientifically.	The summary was well written and thoroughly explored characteristics of science. It gave an example of a question that can be investigated scientifically and explained why this question is scientific.
