

Write It, Name It

Directions: Cut out each piece. Determine if it represents an ionic or covalent bond. Glue it on the next page in the appropriate column. Once each piece is glued appropriately, next to each piece write the name of the compound or the formula (depending on what's given to you).

N_2O	BaS	K_3N	Sodium Oxide	Iodine Heptafluoride
Cl_2O_7	Calcium Chloride	Dinitrogen Trioxide	SO_3	Potassium Sulfide
Sodium Iodide	P_2O_5	$GaCl_3$	Sulfur Hexafluoride	

Name: _____

Ionic Bond

Covalent Bond
